

Heat Pumps in Spotsylvania

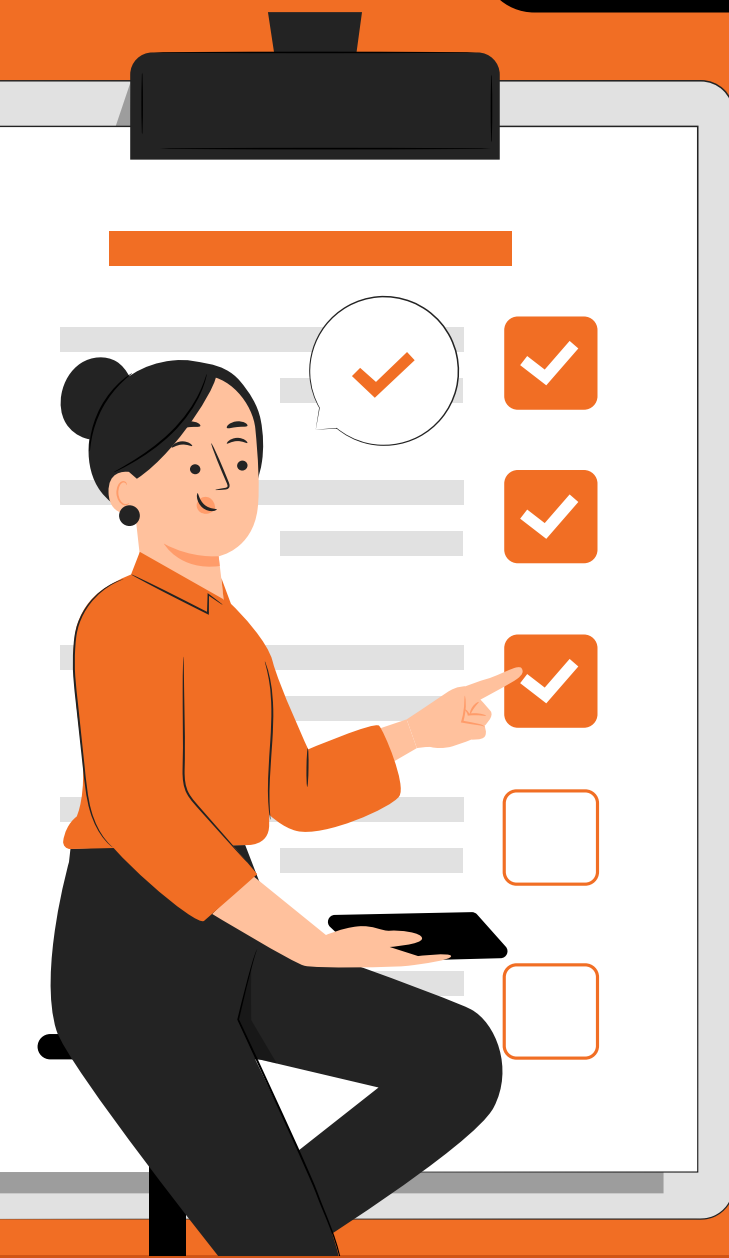

WHAT TO EXPECT WITH A

HEAT PUMP INSTALLATION

Need to install a new heat pump? Here is what you can expect when you have a new **heat pump installed in your Spotsylvania home.**

Get an Assessment

Choose the right-size **heat pump** for the size of your home.

Choose a heat pump with a high SEER and HSPF rating to reduce your monthly energy costs.

Find out the **heating and cooling system** installation price.

Discover what financing options are available for your heat pump installation.

Decide if a single-speed compressor or a variable-speed compressor is right for you. **Air conditioning** installation prices will vary.

Prepare Your Home

Choose an appropriate outdoor space where technicians can place your new heat pump.

Leave your ducts accessible so technicians can install the new heat pump into your **duct system.**

Install the Compressor

Professional technicians will **install the compressor** outside of your home.

Now is a good time to upgrade to a programmable thermostat.

They will also hookup your heat pump to your existing or **new** thermostat.

Technicians will walk you through how to use and maintain your new heat pump.
